Advantages and Disadvantages of Mobile Phone Essay in 400 Words

Introduction:

Mobile phones are a huge invention of technology. It has made human life very easy. Most of the people keep a cellphone with them to stay connected with the rest of the world. It is easy to access the internet on a mobile phone.

It can be a way to improve <u>education</u>, business, and the medical industry. There are many good sides to mobile phones. But there are tons of bad sides too. Let's take a look at some advantages and disadvantages of mobile phones.

Good Sides of Mobile Phone:

It connects the entire world in the same line. It's possible to communicate with anyone anywhere in the world by cellphone. And because of this communication progress, the business has been easier worldwide. People can find important things on Google easily.

A survey says 55% of adults keep a cellphone with them to access information when they need it. The Use of the internet has risen after the invention of the mobile phone. It is a small, portable, and affordable device. Anyone can get a mobile phone to get connected with the rest of the world.

That's why almost everyone has one cellphone now. Education has gone to a new level. Students can learn their lessons in a mobile phone different types of apps that are available in the app store. It is improving the way of life.

To get entertainment, people don't go to the cinema hall anymore. It's possible to watch newly released movies on your mobile phone with 'Netflix', and 'Amazing Prime Video'. The entertainment has been so affordable and easy.

Bad Sides of Mobile Phone:

Including all these good sides, there are many bad sides too. It creates a distance between you with your parents, friends, and relatives, etc. People get too distracted with too much using mobile devices. It happens mostly for the people who play too many video games or use too much social media.

Sometimes it is a waste of time, money, and energy when we don't use it in the proper way. It causes many health problems. And finally, as a student you can face a huge study loss. Some applications steal data from your phone and that could be a risk.

Conclusion:

All these bad and good reasons are depending on our using method. We need to use a cellphone in a proper way. We should not be too addicted to the phone.

Essay on Advantages and Disadvantages of Mobile Phone in 500 Words

Essay on Advantages and Disadvantages of Mobile Phone in 500 Words

Introduction:

Mobile phones are a technology that has changed the entire world. Everyone has been connected with each other because of the mobile phone. The use of the internet has gone to a wonderful level because of the availability of cellphones.

There are so many good sides and good bad sides of mobile devices. It depends on how we are using it. If we use it in the right way then we don't need to fear anything.

Advantages of Mobile Phone:

Of course, the advantages are main and this technology has changed human lives. The most important part is communication. People can get connected with each other easily. You can call anywhere in the world and talk to the person without any kind of interruptions.

The mobile phone network is very strong in the world. Thousands of companies are working on this industry to make it more efficient. It is a huge business industry too. Millions of people are working here.

Impact on Business:

International businesses have flooded all across the world because of mobile phones and the internet. Now people can order something from oversea with their mobile phone. Even you can import or export your products while staying at home.

The business has been easy and it has made a good impact on the economies of different countries. Now people are concentrating on internet-based businesses and they are getting success too. All has been possible because of mobile devices.

Use of Social Media:

Social media is a hugely popular thing at this time. The mainstream social media platforms are <u>Facebook</u>, Twitter, and YouTube. People get connected with like-minded people on these social media platforms. They talk about education, medical, business, and entertainment in <u>social media</u> groups.

It helps to exchange education and culture. It has no border or boundary. Anyone from anywhere can make a social media profile and join the conversations. And that's a huge good part of mobile devices.

Reduce Concentration:

It is proved by experts that too much-using cell phones reduce concentration power. People become impatient. It is a high threat to students. Young people are too much addicted to the cellphone. And mostly they use social media or play games. Too much use of these things can destroy their concentration power. And it will create a bad impact on their education.

Mobile Gaming:

Mobile gaming is a common thing now and billions of people are playing mobile games nowadays. But

it is getting addictive for many of them. Mobile game addiction is a huge threat and it causes different types of health issues. It is one of the biggest bad sides of cellphones.

We need to control how our kids are using the mobile phone. We need to set a time limit for them. That's how we can save them from the bad effects of mobile gaming.

Conclusion:

It depends on our using method that what result we will get from a mobile phone. That's why we need to become aware and wise.

Essay on Advantages and Disadvantages of Mobile Phone in 600 Words

Essay on Advantages and Disadvantages of Mobile Phone in 600 Words

Introduction:

The mobile phone has brought a revolutionary change in the communication industry. It has been very easy to communicate with other people. It's possible to text a text, audio, or video anywhere in the world within a second. Business, medical, and education industry has been very profited from a mobile phone.

It is such a blessing for the entire mankind. But it has some bad effects too. Today we will talk about the advantages and disadvantages of mobile phones. We will learn how actually mobile phones are helping us and how they are making some big harm for us.

Advantages of Mobile Phone:

Any kind of technology has been started because of helping people. The mobile phone is a device that

helps people to make calls, use the internet, play games, and do some other works. It has improved human life. It is helping people to use their time properly.

This is a portable device that you can take anywhere. And it is possible to work with it when you are away. If you have a good network in the phone, then you are good to go. It helps to connect easily with internet functionality.

Communication Improvement:

Communication improvement is the biggest achievement of mobile devices. It helps people to connect with each other effortlessly. If you want to talk with a person, you need to dial his contact number from your saved contact list and it takes only two or three seconds.

That's very simple and easy to contact a person with a mobile device. Almost 96% of Americans own a cellphone and that has made this industry huge. Mobile phones are affordable and portable, that's why it is being popular day by day.

Using the Internet:

A survey is saying that 55% of adults keep a phone with them because they need to access information. The mobile phone helps them to access that information right away. That is possible because of the power of the internet. To use the internet, people prefer mobile phones to computers, because mobile phones are portable and easy to carry.

And you are going to get the same result and output on the mobile phone. The Internet has made the entire world a little village. People can connect with each other very easily. And it has made a good opportunity in business and education. You can do business and you can learn new things with an internet-connected mobile device.

Disadvantages of Mobile Phone:

Now let's see the bad sides of mobile phones. Including so many good sides, there are a few bad sides also available. Actually our using methods and techniques are very much wrong sometimes, and that's why we have to experience the bad effects.

It could be a reason for distraction and isolation. You could lose your attentiveness because of too much mobile phone use. It has a bad impact on health too. Sometimes it is a reason for the loss of money. New cell phones are expensive.

And some people are addicted to getting a new cell phone, where they can get the same service from the old one. The mobile game industry is getting huge now. People are playing mobile games and getting addicted there. It isolates a person from the family and from the community.

When a person is too much addicted to social media, mobile gaming, or anything on a cellphone, he loses his concentration power, he faces a severe headache. And it creates more health issues.

Conclusion:

Mobile phones have good sides and bad sides. It depends on our using method what effect we have to

face. So we need to become wise when we are using a mobile phone.
