### Description

#### Short Paragraph on a Hot Summer Day in 200 Words

In the [summer season](#), almost every day has so much high temperature. I have experienced lots of hot summer days in my life. In [our country](#), June and July is two months with the highest heat and warmth. People don't want to come outside at this time. They want to stay under the fan or a room with AC.

It becomes so hard for kids to play outside. People use an umbrella when they need to walk in the street. There is a lack of water everywhere. The ponds and canals are waterless at this time. The sun shines with his full power at this time. Everyone wants to get rid of this heat.

It is good to wear light white and cotton clothes at this time. A few days ago, I went to the market for buying little stuff. The day was a hot summer day and I experienced really high heat at that time. The nights are also so much hot and it makes people too uncomfortable.

Noon is the time with most heat weather. We need to keep our skin safe from this Sun. Always have to use an umbrella if you are going out. Overall a hot summer day is really enjoyable for me.
