

## Short Paragraph on Pollution for Children and Students

### Description

### Short Paragraph on Pollution in 200 Words

We have lots of elements in our nature. All these elements have an equal contribution to making the [environment](#) beautiful. But sometimes these elements become polluted due to the human act. We called this situation as pollution. There are different types of pollutions. [Water pollution](#), soil pollution, and [air pollution](#) is the major pollutions.

Pollutions are threatening for our nature. It is destroying the beauty of the environment and making it unable for a human to live. Most of the time human is responsible for these problems. The air pollution is the biggest threat. The biggest reason behind it is deforestation. People are cutting down trees in large numbers and it has a bad impact on the environment.

The mills and factories are leaving black smoke that is polluting the air and leaving wastages in the river or canal that is polluting the [water](#). Due to air pollution, people face lots of fatal diseases. Most of the Indian cities have a major air pollution problem. We can solve them with spreading awareness. People need proper education about these and that's how they will be able to prevent this. If someone doesn't know about bad sides of pollution, then he never stops polluting nature. Let's make our nature beautiful by stopping pollution.
