## Short Paragraph on Save Environment in 250 Words

## Description

## Short Paragraph on Save Environment for Students and Children

In our <u>nature</u> we have so many elements these are making our lives awesome and it is almost impossible to live without these elements. <u>Water</u>, soil, food, air are the main elements of our environment. But in this modern era, these resources are facing so much threat to get polluted.

We need to stop pollution in order to <u>save the environment</u>. There are so many reasons that are we need to focus on <u>environment</u> saving. First of all the entire world is facing a problem of increasing temperature. It is known as <u>global warming</u>. It is happening due to air pollution.

The natural resources are limited, maybe someday we have to face the shortage and our life will be so hard at that moment. If we can save natural resources, then we will be able to keep the environment beautiful and safe too.

Too much <u>pollution</u> is highly risky for all the human and <u>animals</u> on this planet. People face lots of diseases through water and air. The wildlife becomes too tough. The animals can't live there properly. Sometimes too much warming and temperature make fire. Amazon jungle and Australia have faced huge fire experiences. There are so many ways to save the environment. First of all, we need to save water. We need to waste that. Drinking water is really important and there is lots of importance of water in our life. We have to stop all types of pollutions. Be aware of air and water. if we can keep these elements safe then we will definitely get a safer nature.
