### Introduction:

Education is a basic need that every human being needs to have. We all required education for so many reasons. Today we will talk about the value of education. There are tons of values of education in human life.

It helps a person in many ways to get prosperity and a better life. It helps to improve their livelihood and become a better person. Overall there are so many values of education, that we are going to talk about.

### Value of Education:

First thing first, the value of education starts with gaining knowledge. The most important purpose of getting an education is to gain knowledge. We need the knowledge to improve our life. When we have enough knowledge about a specific thing, we can utilize that topic and it gives us an opportunity to get a job or do business on that.

That's how we manage to get a better livelihood. Suppose when a person studies a computer, he keeps special knowledge about this topic. And it gets easy for him to get a similar job or do similar business.

### Learn Skills:

We can learn skills by getting an education. We all have a practical part of our education, where we

see some live tests or experiments. Either it could be in a science lab or in a playground. By doing all these things, we gain expertise on a specific skill.

That makes it easy for us to get work in a similar field. And that improves our life. That's why education is very important. An educated person can learn any skill easily because he can manage some resources about the skill.

Suppose you want to learn about cooking, if you read a cooking book, then you can cook better food. You would not need to waste any food item to do tests or experiments. You already have enough knowledge from the book.

### **Boost Creativity:**

The creativity of an educated person is better than an illiterate person. It opens lots of doors of your mind and brain and lets you think out of the box. When a person starts thinking out of the box, he comes with many amazing and creative ideas. And it is only possible when you are educated and have the proper knowledge and resources to do that.

### **Become a Better Citizen:**

It helps people to become better citizens. We learn about all the rights and responsibilities of a citizen by getting a proper education. Even an educated person gets that sense to understand what is right, and what is wrong.

That's how he becomes a better citizen for the country. And the country wants more and more ideal citizens because they contribute to the country in a positive way.

### **Get Freedom and Wisdom:**

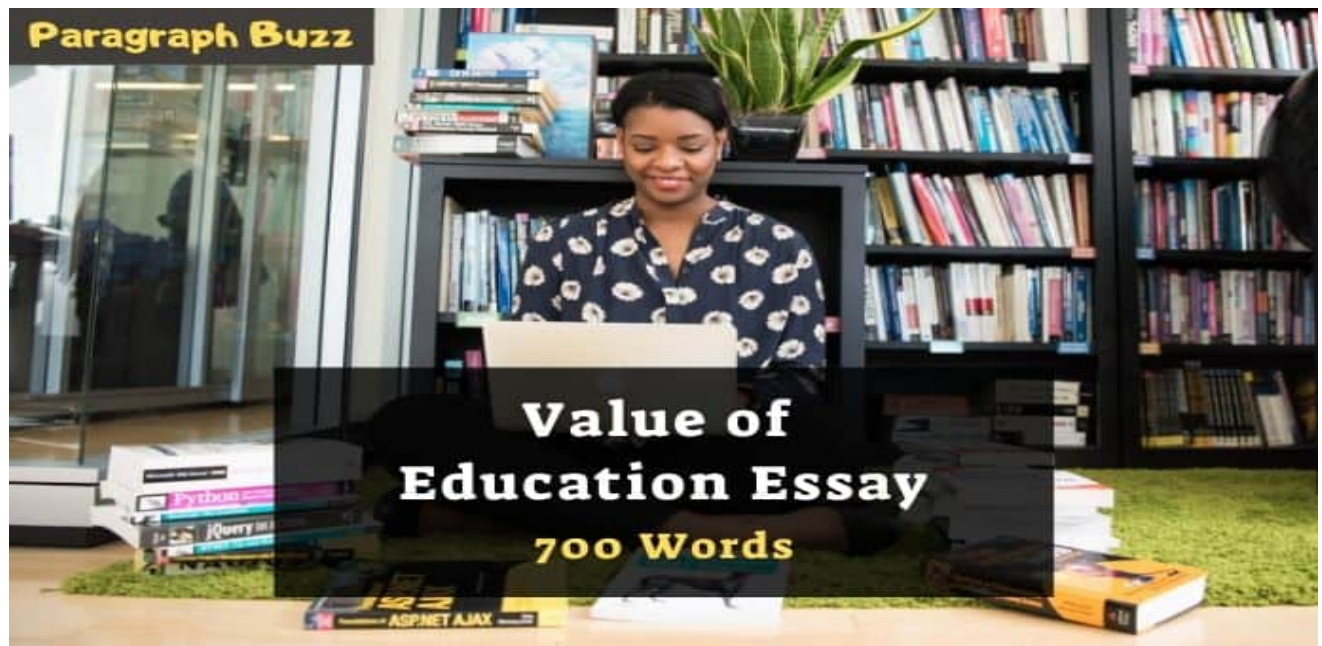

When you will get the right education, then you will get enough wisdom in your life to become a free soul. One of the biggest reasons behind education is to get freedom and independence from an unwanted life.

If you get the right education and in a proper way, then it has opportunities to make you a very independent person. And if you can become an independent person, then you will feel the real fun of living a life.

### **Conclusion:**

Education shapes our life in a better way. It improves and helps us in many ways. That's how we can adapt to modern life. So education is very important for everyone to get. We need to ensure education for every person. The government should pay extra attention to that topic.

### **Introduction:**

Education is the most important basic need. To get success in the world in every aspect, you need education. It is playing a significant role in the progress of human civilization. If we look at the brightest faces of the country, we will all be educated peoples.

Education opens lots of doors for a person. It helps to gain knowledge and at the same time, it teaches how to use that knowledge in real life. Education has different types and forms. The method of education is different from one place to another.

Some people believe in practical education, and some people believe in the theory and practical both. People can learn different types of skills and it becomes helpful for them to make a better future. It helps to prepare the students for their next life so that they can work and make their life better.

### **Types of Education:**

Education has two types mainly, theory and practical. We go to school and colleges, read textbooks, and gain knowledge from books. That is called theoretical education. When a person learns something by doing it, then it is called practical education.

Both are highly important for students. But we know that our country is not paying proper attention to practical education. The government should pay more attention to technical education.

When a student gains some practical skill then it becomes easy for him to get a job. But theory education is also important. We can't ignore any of them, both of them are highly important for our life.

### **Importance of Education for Country:**

A country needs a responsible and ideal citizen and it is impossible if the citizen doesn't get a proper

education. Only education can ensure a citizen's responsibility. That's why the importance of education for the country is huge.

That's why almost every country in the world offers free education. They don't charge or students don't have to pay for education. But it is different for higher degrees. It teaches a citizen about his responsibilities and rights.

And that's how someone can become a proper citizen of a country. An educated citizen is like a gem or property for the country. That's why the state wants everyone to get educated.

### **Importance of Education for Society:**

The society is structured with a bunch of people. In society, there is every type of person. Some people are very responsible and polite. They are an important part of society. There are some people too who are a risk and threat to everyone.

The difference between the two types of people in society happens due to a lack of education. When a person gets a proper education, then he becomes a very polite and important part of the family. That's why we need to give lots of priority to ensure education for everyone in society.
